Colorado Solar Rebate Update

The Governor's Energy Office has announced Statewide Rebates for Solar Energy. This provides a \$1.50 per watt rebate, up to \$4,500 total.

This rebate can also be combined with local utility rebates up to a \$3.00 per watt total.

This Standard System will provide:

- 1 4,500kWh of electricity per year (equal to ~\$600 of energy savings per year).
- 2 Over \$3,000 in tax credits through the Federal Renewable Energy Tax Credit Initiative.
- 3 Over \$30,000 return in the form of rebates, credits, and energy savings over the life of the system.
